

THE "SCENES IN MAORILAND" POSTCARD SERIES. These are coloured cards published by Tannar Brothers (dates not known). They are characterised by having a Maori girl holding a camera at the left hand side and an oval shaped scene surrounded by a white border. The title is printed on this border at the base of the scene.

The series is numbered from 501 to past 600. The exact number is not known. Listed below are details of the cards that are known as on 19.5.94. Many details are from cards I already have in my collection and Mrs Myra Franks supplied me with details of cards in response to my advert in the May 1994 edition of Postcard Pillar.
