2020-21 Secretaries Report

It's disappointing that for the second year running Covid has caused the cancellation of our annual Convention in Hamilton. I would like to thank the other members of our convention sub-committee for the effort which had gone into the planning for this. Bruce Isted for his attention to detail and thought which he put into preparing the Convention paperwork. Robert Livingston was a great help in sourcing a venue and to bounce ideas off. I am hopeful that a convention in Hamilton will eventually occur and all our efforts will not be wasted.

Other than convention planning, the role of secretary involves a small amount of work each week. Membership details are constantly changing with new members joining, resignations, change of address, change of email etc etc.

99% of correspondence is via email so everything is done on the computer. Eyesight problems over the past year has meant I have had to increase the font size on the society files!

Eric Diamond

Secretary.
